Ruth Roland and her hula garb.

Ruth Roland, movie star, wanted a hula-hula skirt one day but the high cost of the necessary grass halted her until she had a brilliant idea, seaweed. So she just took a dip and came up with the skirt.

## Crown Point

The many friends of Mrs. M. J. Brown will be sorry to learn that her health is very poor at present, a recurrence of her old ailment having appeared. She is confined to her home and is suffering much pain.

The Crown Point high school basketball team are playing whiting at the high school gym tonight.

The Eastern Star are holding their annual election tonight.

The changes in the treasurer's office which have been made the past week are about completed and they are a great improvement as well as enlarging the office to a great extent. The tax paying counter has been moved forward about two feet, which makes a material difference in the size of the office. The treasurer's office has always been cramped for room owing to the large books being used and the tables upon which they are placed occupying most all the space. Room has been made for a new table. County Treasurer Bradford planned the improvement.

The following officers were elected for Lake Lodge, No. 157 A. F. & A. M. on Wednesday night, the installation of which will take place on St. John's day, Dec. 27: Herbert T. Johnson, W. M.; Wm. Demmon, S. W.; Dr. Walter Beck, J. W.; John J. Beattie, secretary; Wm. Sierb, treasurer; John Perry, trustee; director for building association, R. B. Bradford; Fred Koshlin and J. J. Steeb.

Mrs. Maurice McKenzie is expected home from New York for the holidays to spend them with her father, Joseph Beattie and sister, Miss Gladys. Her husband may, accompanying her as his health has been rather poor of late caused from over work during the recent presidential election.

Harry Baker has been confined to his home with a severe cold and asthma this week.

## Why So Many Prefer The Brunswick

THE Brunswick Method of Reproduction is the wonder of the phonographic art. And it wins acclaim from two principal ideas: The Ultona and The Brunswick Tone Amplifier.

The Ultona is an exclusive invention, an all-record player to be had only on The Brunswick. It plays all makes of records as they should be played—with the proper needle and the precise weight—and with the proper diaphragm.

The Brunswick Tone Amplifier is built entirely of wood, according to a new process. In this "throat" of the phonograph all metal is discarded. This brings purity and volume of tone. There is an absence of the usual metallic sounds. You've never heard any record at its best until it is played on The Brunswick.

A tone test at a Brunswick shop is conclusive evidence. Your ear is a quick judge.

Your admiration for this superior phonograph will compel you to award The Brunswick first place. Come in today. Your judgment is final.
